

Series 8 - Low surface temperature heaters

NOBO Electro has been the market leader in the development of the LST heater concept and today NOBO Heating is widely recognised as the preferred supplier of these highly technical and safety critical convector heaters.

Features:

- Limits all surface temperature to 43°C at full output
- Safe air leaving temperature
- Low maintenance
- Use with NOBO Heating wide range of thermostat options
- Suitable for schools and nursing homes
- All controls can be tamperproofed
- Stylish design
